Stand construction

1

Deadline: October 13th 2023

Terms of payment and rental

1. The exhibition stand will only be available for the event and for the period of time arranged.

2. The invoice amount is due immediately upon receipt of the invoice. If we have not received payment by this date, the exhibition stand will not be delivered. Bank fees arising from foreign transfers are always charged to the party which placed the order.

3. Once the leaser has delivered the stand, the renter is fully liable to the leaser for compensation in the event of loss or damage of the stand including all furniture, unless the renter can prove that neither he nor his employees are responsible for the loss or damage.

4. Stand insurance is recommended.

5. The leaser is entitled to set up the stand as soon as the event organisers have made the stand assembly area available. The renter must then check immediately that the stand delivered is complete and that no parts are missing or damaged. The leaser must be informed immediately in writing if any part of the stand is missing or damaged. If the renter fails to do this, it will be assumed that the stand is complete and in perfect condition, unless an inconsistency is found which was not evident at the time the stand was inspected.

6. The walls may not be painted or glued or have nails hammered into them or be damaged in any other way. In the case of material which has not been perfectly cleaned, FWTM GmbH & Co. KG will charge the exhibitor a cleaning fee of € 3.00 per square metre of exposed surface.

7. Damaged walls will be charged to the exhibitor at net cost.

8. The renter must ensure that the stand is supervised at all times until it is dismantled. This includes the time after the close of the exhibition.

9. Pre ordered and reserved stand material which is not collected will be charged in full to the party which placed the order. Should another rental possibility arise for which the leaser may not necessarily be responsible the party which placed the order has to bear the costs of delivery and collection and of any rent which may be lost.

10. Orders must be received by the leaser by the deadline stated at the latest so that delivery can be effected a minimum 24 hours before the start of the exhibition, provided the official stand assembly times permit this. The rental contract only comes into force when the leaser has a written acknowledgement of receipt.

11. In the case of orders received after the deadline stated, the following fees will be charged in addition to the total invoice amount:

Until one week after the deadline 15%

From the second week after the deadline 25%

One week before the exhibition starts 50%

There is no guarantee that the stand will be set up by the time the exhibition opens for orders received after the deadline stated.

12. The leaser is only liable for any type of damage sustained by the renter or a third party in connection with the rental or use of the

stand if the damage is intentional or caused by gross neglect on the part of the leaser, his employees or legal representatives.

13. Any additional agreements and arrangements are only valid if they exist in writing.

14. The place where the contract is to be fulfilled and court of jurisdiction is Freiburg.

Please use A1/A2 to order additional power connections if you selected the option **No, we do not require the above connection** in the registration form, or require power connections in addition to those ordered in the registration form.

Electrical installations

6

Deadline: October 13th 2023

Connection conditions and power delivery specifications

1. Orders for electric installations shall be submitted to the agent of orders until the closing date referred to in the exhibitor's service manual. Thereafter there is no claim for completion. For orders and changes coming in after the closing date there will be charged an extra handling fee of € 35.00 for each socket. All orders have to be signed legally binding.

Cancellations may be made up until the stated date free of charge, incl. for individual components of services and orders. Thereafter, a fee of 50% of the price is incurred up to 14 days prior to the start of the event. For cancellations made later, 100% of the full price for contracted services shall be charged, not including electricity costs. Invoicing will be provided directly by the contract partner to the binding invoice address listed above by advance payment. The invoice has to be checked immediately. Reclamations on the range of the charged supplies and attendances have to be claimed before the dismantling of the booth, as to allow checking according to specifications.

The customer can send a non binding installation request for the connection using a site plan. Changes in positioning according to customer requirements without prior transmission of a site plan can be calculated separately.

The customer agrees until further notice that all customer data required for the order processing may be stored and used.

The prices above are to be understood plus value added tax (VAT) and are valid for a maximum usage period of 7 days. A longer usage period may be offered separately.

2. The complete material needed for light and power current installations will be provided on a rental base. The exhibitor undertakes to ensure, that the material used will be complete and intact for the dismantling or for the handing over at the end of the event. Missing as well as broken parts will be invoiced.

3. Electrical connections from the trunk line to the booth may only be made by the contract partner. The opening of the supply routes is strictly and only allowed to the contract partner. The supply routes must be always accessible, in case of dysfunctions. Subsequent installation modifications will be invoiced separately based on work. Unauthorized connecting of wires and devices to existing wires of another booth are not allowed and will entitle the contract partner to the immediate removal of the electrical connection.

4. StromInsLand Gesellschaft für mobile Stromversorgung mbH does not assume liability for interruption of supply and voltage fluctuations within the public mains supply. In all other respects StromInsLand Gesellschaft für mobile Stromversorgung mbH does only assume liability for the consequences due to electricity blackouts, voltage fluctuations and disturbances by electromagnetic fields within its own power supply, and then, only if caused by gross negligence or willful or malicious breach of duty of its staff or its vicarious agents. Insofar as a liability, also for a slight negligence, does exist due to a breach of a cardinal duty, it shall be limited to the amount of the expected predictable average damages. The above mentioned limitation of liability does not apply to injury to life, body or health of people.

5. Facilities, devices and installations at the booth have to comply in all parts with the DIN / DIN VDE regulations and the Technical Connection Conditions for the connection of the low voltage system of the local electric supply company. If these requirements lack, the connection will be disconnected. Messe Freiburg and its assigned contract partner StromInsLand Gesellschaft für mobile Stromversorgung mbH do not assume liability for damages caused by bad power supply lines and bad devices of the booth holder/exhibitor. The booth holder / exhibitor is liable for his devices, facilities and supply lines according to the legal regulations. The exhibitor is bound to switch off his connection daily, when leaving his booth or area (liability for damages in case of omission). If devices must stay in operating state overnight (cooling devices etc.), the exhibitor shall take specific care, to ensure, that no damage will occur.

6. During the complete duration of the exhibition there will be either a fault clearing and maintenance service of the contract partner on the exhibition area or there will be an on call service with a guaranteed reaction time of 45 minutes after the receipt of a trouble report.

7. For connections that are installed without an approved meter, the consumption can be estimated and calculated as a flat rate. The contractor shall be permitted to install an appropriate meter, even if it has not been ordered by the customer. This will be done at the customer's expense. This will be charged according to the conditions listed in section C.

Deadline: October 13th 2023

Terms of delivery and supply for water and compressed air

- 1.** Messe Freiburg must have received the order by the deadline stated in order to forward it to the company Rud . Otto Meyer Technik GmbH & Co. KG. In the case of orders received after the deadline stated, there is no guarantee that supply can be made available by the time the exhibition opens. Moreover, work carried out from orders received afterwards will be charged at a considerably higher price (invoiceing is based on hours needed).
- 2.** The invoice also serves as confirmation of the order. Payment should be effected strictly net within 8 days after receipt of invoice.
- 3.** All material for water systems will be made available on a rental basis. Exhibitors are responsible for ensuring that materials are returned in perfect condition.
- 4.** Meters owned by the exhibitor will not be accepted.
- 5.** No liability is accepted for any cessation of the water supply, fluctuations in water pressure or damage to the water systems.
- 6.** Arrangements made with employees of Rud . Otto Meyer Technik GmbH & Co. KG will not be recognised . Requests and orders are to be addressed directly to the company.
- 7.** Exhibitors whose presentations require a high level of water consumption or who need a large quantity of water for other purposes must arrange for the waste water disposal unit to be connected to the sewer.

During stand assembly time and the exhibition you can reach us on the Phone number number: +49 761 3881 3227

Free Wi-Fi access

	€ each
Free Wi-Fi access (for 30 minutes per day and device)	0,00

Messe Freiburg offers free Wi-Fi with a maximum speed of 1 Mbit/s for a period of 30 minutes per day and device. Wi-Fi access is available for 30 minutes after registration.

Wi-Fi (access for 3 or 24 hours)

	€ each	Quantity	Total
Wi-Fi — access for 3 hours per connection	4,20		
Wi-Fi — access for 24 hours per connection	25,21		

Wi-Fi can be booked for either 3 or 24 hours (starting from the time of registration), with a maximum speed of 5 Mbit/s. All users are connected to the same network, so the speed may vary depending on how many users are connected simultaneously.

Exclusive exhibitor Wi-Fi

	€ each	Quantity	Total
Wi Fi access code for 1 end device	99,00		
Wi Fi access code for 4 end device	199,00		
Wi Fi access code for 10 end device	299,00		
Wi Fi access code for 25 end device	399,00		
Wi Fi access code for 50 end device	599,00		

From the next-to-last day of setup until the last day of the event, the exhibitor Wi-Fi uses a separate network whose total bandwidth is shared with the other exhibitors only. This separate network's speed will remain unaffected by the visitor and guest Wi-Fi. **We recommend that exhibitors order a cabled local area network (LAN) if their exhibits rely on an unlimited, secure internet connection or should be provided with a guaranteed bandwidth (see form 9, Internet access via LAN).**

All prices are subject to VAT. Order according to the general terms and conditions mentioned overleaf. The billing period (per day) starts with the first log in into the WLAN net. The access data will be handed out to you at the information desk. Please note our special terms and conditions on the following pages!

Deadline: October 13th 2023

General terms and conditions M3 Connect GmbH

1. Scope

These general terms and conditions govern services against payment provided by M3 Connect GmbH, namely the supply and operation of broadband Internet access via the user's wireless LAN (WLAN) technology. These General Terms and Conditions and all revisions thereto are accessible at all times on the portal pages at each M3 hotspot. M3 Connect GmbH reserves the right to modify these General Terms and Conditions. This shall apply in particular to revisions on account of regulatory provisions and take immediate effect, the modification of Internet related framework conditions, and changes to M3 Connect GmbH's business procedures and / or business areas.

2. Technical specifications

The user will receive broadband internet access via the m3connect infrastructure according to the selected package. To use the m3connect infrastructure you need:

- a network compatible end device for connecting with the m3connect network
- a web browser that accepts cookies
- please note that any connection via a proxy server is prohibited
- automatic rerouting must be permitted.

The speed of data transfer will depend on the distance from the access point and the type of antenna used by the customer. To receive a username and password, users need to order access or buy a prepaid card. Username and password must be entered into the input fields in the browser window. Contract duration, validity and volume limit depend on the package selected by the customer. Should legal or regulatory provisions change, m3connect is authorised to change or stop its services. m3connect is authorized to have a third party temporarily or permanently render services or partial services.

3. Payment

Payment is made when the customer places the order.
Prices do not include applicable value added tax.

4. Locations / hotspots

Internet access is available at all M3 Connect hotspots (see <http://www.m3hotspots.de>). M3 Connect reserves the right to restrict use at certain hotspots.

5. Hotline

The WLAN hotline is available around the clock on 0800-435 75 26 (free of charge when calling from a German landline or mobile phone) Or +49 (0)241 705 396 05 (at the landline rate). and can answer any questions related to hotspots and the wireless LAN service. Customers must direct technical questions concerning the configuration and setting up of end devices to the respective notebook manufacturer or, in the case of company equipment, to the IT department of the company in question.

6. Contract duration / use

Paid services commence at the ordered start time or when access to the M3 Connect infrastructure is granted. The rate selected deDeadlines the contract duration. The user implicitly accepts the General Terms and Conditions by ordering the service. Both contracting parties may Deadlineate the contract in extraordinary circumstances in the event of gross non fulfilment by the other contracting party of its current contractual obligations as set out in this agreement.

7. User's responsibilities

The user shall notify M3 Connect GmbH of any disturbances in wireless Internet access via M3 Connect GmbH's network. User names and passwords are non transferable. The user must not disclose his or her user names and passwords and must ensure that they are not accessible to third parties. The user is obliged to inform M3 Connect GmbH immediately in cases of suspicion of improper use and / or if access information has become known to a third party. The user undertakes not to use M3 Connect GmbH services in violation of applicable laws or for immoral purposes and to observe the rights of third parties. In particular, this includes the following: undertaking not to save or permit the saving of any disturbing or slanderous material, material that infringes on the privacy of others, material of an improper, threatening, illegal or otherwise unlawful nature, and material whose use is contrary to public policy and undertaking not to make reference to such materials; undertaking not to make available or make reference to any material that could damage M3 Connect's reputation; undertaking not to supply, convey, or request the transfer of viruses, Trojan horses, junk mails, spam, chain letters or non solicited mass e mail communications; undertaking not to use or execute any mechanisms or applications that could lead to or cause changes in the physical or logical structure of M3 Connect servers or the M3 Connect network or other networks; undertaking to use the network provided by M3 Connect exclusively for Internet access and not to establish any connection to devices other than those devices within the M3 Connect network. In cases of the violation of the aforementioned obligations, M3 Connect GmbH shall be entitled to block Internet access with immediate and total effect. The user must compensate M3 Connect GmbH for any damages resulting from such infringements and, in addition, must absolve M3 Connect GmbH of any disadvantages arising from the user's damaging conduct.

8. Liability

M3 Connect shall not be liable for damages caused to the user by inappropriate WLAN use. M3 Connect and its partners and suppliers assume no liability for damages, claims, or incurred costs of any kind or for any consequential damages, secondary, coincidental, indirect criminal damages, exceptional or other damages, or for requests or claims for compensation for lost profits and/or losses. In all other respects M3 Connect's liability for any damages irrespective of legal basis including impermissible acts is excluded. M3 Connect has no control over the transfer of data over the Internet. M3 Connect is not liable for guaranteeing that third party information transmitted via its M3 Connect infrastructure is available, current, or lawful.

Furthermore, M3 Connect accepts no liability for guaranteeing that transmitted/sent data is not subject to property rights held by third parties or that the sending party transmits data and/or other information correctly or in accordance with the law unless M3 Connect acts with gross negligence or intent by refraining to issue a feasible and necessary warning or carrying out a check despite the existence of tangible evidence of infringement. Inasmuch as M3 Connect GmbH allows access to the databases or services of third parties, M3 Connect GmbH is not responsible for the availability, content, or safety of these databases or services, the accuracy of their content, or their completeness and topicality, or for ensuring that they are not subject to the property rights of third parties with regard to the data, information, and programs downloaded by the user. M3 Connect GmbH hereby informs users that information accessed via M3 Connect GmbH's infrastructure could be copyright protected. Users may therefore be liable to pay damages to the copyright holder and may be held criminally liable for the copying, editing and distribution of content. It is incumbent upon the user to be completely aware of the property rights of third parties and to

WiFi connections

8

Deadline: October 13th 2023

respect such rights. M3 Connect GmbH is not liable for the illegal content of third party providers.

9. Security

WLAN operation is not encrypted. We expressly point out that access by third parties (computer hackers) may not be ruled out. We suggest that users undertake their own secure encryption measures. If the correct network name (SSID) has not been configured, the WLAN card can be addressed by another signal.

Users may possibly find they have gained unauthorised access to another network. It is expressly pointed out that M3 Connect will not accept liability for legal consequences resulting from such access.

10. Data protection

M3 Connect GmbH only collects, processes, and manages users' personal information provided during registration for authorisation purposes, to provide M3 Connect GmbH services, and to compile statistics.

Personal information is not shared with third parties. By using the service, the user expressly accepts these data protection provisions. Disclosure to federal bodies and authorities only occurs within the context of mandatory legislation. M3 Connect GmbH complies with data protection regulations and vouches that all individuals who are entrusted with the fulfilment of this contract shall likewise observe these regulations. M3 Connect GmbH requires that its employees adhere to legal data protection and contractual confidentiality regulations.

11. Miscellaneous provisions

The laws of the Federal Republic of Germany shall govern this contract. The court of jurisdiction shall be Aachen, Germany. In the event that a provision of the General Terms and Conditions is or becomes ineffective, the validity of the remaining terms and conditions shall remain unaffected. The ineffective provision shall be replaced by a provision that most closely resembles the legally effective business purpose and meaning of the relevant ineffective provision.

Suspending points / raised platforms **10**

General standard terms and conditions of Malecon Staging. Rigging & Support Systems GmbH & Co.KG

1. Orders

An order is regarded as placed only if it is confirmed in writing. Orders are only regarded as valid when the customer's signature and name, including a binding invoice address, are legible.

2. Services and payment

Services will be provided only if payments are made in advance. The provision of services is conditional on receipt of payment. The prices above are to be understood plus value added tax (VAT) and are valid for a maximum usage period of 7 days. A longer usage period may be offered separately. Cancellations may be made up until the stated date free of charge, incl. for individual components of services and orders. Thereafter, a fee of 50% of the price is incurred up to 14 days prior to the start of the event. For cancellations made later, 100% of the full price for contracted services shall be charged.

3. Orders

Suspending point orders must be received prior to the deadline stated. Considerable extra costs will be incurred after this period expires. Extra costs amounting to 25% will be charged in case of orders or deficiencies to which the local building authorities have objected while official assembly is in progress (acc. to VStättVO *, DGUV V17/18).

4. Performance

Suspension points will only be installed when all the data, in particular, weights and accurate positions, have been defined. False indications or falsely made orders, and alterations which may result in consequence thereof, will be charged extra. Malecon Staging. Rigging & Support Systems GmbH & Co.KG is solely permitted to attach suspended loads.

5. Safety

Only loads complying with DIN standards (DGUV V17/18) may be hoisted. Self made constructions may be suspended only after prior inspection by Malecon Staging. Rigging & Support Systems GmbH & Co.KG

6. Planning

When orders are processed while assembly is in progress, delays might ensue because of jammed passages. All suspension points ordered in time will be mounted prior to the beginning of the exhibition as agreed. The date is stated in the order confirmation dispatched.

6a. Information

Spotlights and contact rail spots must be secured with a safety device. Insulated safety devices must be used for contact rails.

6b. Hoisting

Raised platforms for stand assembly and fixing lamps are rented out on a daily basis only. Malecon Staging. Rigging & Support Systems GmbH & Co.KG is solely entitled to remove any suspended objects.

7. Liability

We do not assume liability for any suspended constructions which are provided by exhibitors. Our coverage includes expressly

Deadline: October 13th 2023

our rental objects only.

8. Price for a suspension point

The price payable for a suspension point depends on the object's weight for which a flat rate will be charged. The suspension point will be handed over 6 m above ground. It consists of a steel rope which is suspended from the ceiling. Additional work will occur when the construction needs to be fastened to the suspension point.

9. Assembly and disassembly

The dates for assembly and disassembly must be in writing. For security reasons, the hall will be open to hoisting platforms on the first assembly day after 10 p.m. only. As a rule, no assembly or disassembly is allowed to take place over the heads of people.

10. Arrangements

We shall confirm in writing any appointments agreed orally.

11. Special agreements

Special agreements are only valid when they are made in writing. The approval of Messe Freiburg will be required in special cases.

12. Jurisdiction

Jurisdiction and place of fulfilment is Freiburg / Breisgau.

13. Loads over 750 kg

A special permit is required for this type of suspension.

Provision of emergency services

The volunteers offered at Messe Freiburg are made available by the partner agency Zentgraf Team Support GmbH, Schnewlinstraße 6, 79098 Freiburg as part of a temporary worker contract.

This has the approval for temporary employment according to § 1 Abs. 1 AÜG, issued by the Federal Employment Agency, Regional Directorate Nuremberg. The lender is a member of the interest group of German temporary employment agencies, IGZ e. V., and applies the IGZ/DGB collective agreement to its employees.

After the requirements have been sent, an individually calculated offer will be made for the specified needs.

The provision of emergency services requires the conclusion of a temporary employment contract.

The terms of payment and cancellation of the partner agency and the legal requirements for working hours and breaks apply.

Stand security

15

Deadline: October 13th 2023

General terms and conditions of the security company

1. General

a) Security services may only be provided by security companies commissioned by Messe Freiburg. The employment of private persons or other security firms for this purpose is prohibited. The security company commissioned by Messe Freiburg is entitled to expel any other, unauthorised security firms from the exhibition grounds.

b) Security services will be provided by uniformed security guards.

c) The employees of the security company are obliged to enter all occurrences into a security service record; these incidences will be reported to the customer by security management.

d) Since all the items and objects listed in the security service records are reviewed when a stand is handed over, or returned, the process of handing over and returning a guarded stand shall only proceed in the presence of authorised persons.

2. Limitation of liability

a) The security company is obliged to place a contract with an insurance company for third party insurance in accordance with § 6 of the ordinance applying to security service companies. The liability follows from the liability insurance policy for security service companies in Germany. The customer is entitled to demand evidence that such insurance has been taken out.

b) The extent of liability shall be restricted to the following sums

I) Personal injury, damages to property and financial loss (flat rate)*	€ 5,000,000.00
II) for pure financial loss**	€ 250,000.00
III) for loss of secured items	€ 20,000.00

* Processing damage as well as loss of borrowed keys or chip cards are insured up to the sum insured by the contract for damage to property.

** per insurance claim, limited to € 500,000.00 for all insurance claims in an insurance year

3. Liability claims

a) The employees of the security company are obliged to enter all occurrences into a security service record, these incidences will be reported to the customer by security management. These records shall contain all items and objects to be covered by the liability insurance of the security company in the event of loss, risk or damage, this liability only applies if the hired security service caused the damage in question. The signatures put under these records are legally binding and apply to all details included in the provision of security services. Damages to or the loss of recorded items are to be immediately noted with the security management upon handover. No liability shall be accepted in the case of a belated statement or communication of a claim. The security company does not assume liability for any items or objects that have not been listed in the records. Security management must be informed if the customer refuses to sign the hand over minutes when he returns the stand. The absence or loss of a guarded item or object is the only reason acceptable for refusal. Should the signature be refused without a statement of reason, or by stating any other reason(s), the security company excludes liability for the entire security service period. After Deadlineation of the exhibition / event the security service records shall be handed over to Messe Freiburg. Customers wishing to

provide evidence of the security services rendered are entitled to ask for the release of these records at any reasonable time.

b) If the security company, or its insurers, refuse to accept a claim for damages, then the customer must pursue the claim through the courts within a period of 3 months, otherwise any claim shall become void.

4. Order processing / conditions of payment / cancellations

a) Stand security personnel can only be ordered directly from Messe Freiburg by using the appropriate order form.

b) Invoices are issued by Messe Freiburg. The settlement of these invoices is immediately due upon receipt. Cost set offs or retention of security fees are not permitted. Irrespective of this, Messe Freiburg is entitled to issue invoices before or during the exhibition / event to be settled immediately in cash or by cheque.

c) The invoice shall contain a detailed list of the security company's duty hours. The hours worked, which will be documented and stored in handover reports, shall be billed in 15 minute increments. Deviations between hours planned and actually worked are to be corrected and considered directly upon invoicing.

d) Cancellations or reductions of services already ordered must be communicated in writing to Messe Freiburg no later than 12 hours prior to the commencement of security duty. Later cancellations or reductions will be charged to the account of the customer without deductions, even in the event of non performance.

5. Surcharges

a) All orders received prior to the deadline stated will be charged with the regular rate per hour of service. In cases of belated arrival of orders the following surcharges ensue:

14 days prior to onset of the event	25%
up to 7 days prior to onset of the event	50%
on the day stand assembly period begins	100%

b) We expressly reserve the right to deny a binding provision of services if orders are received after deadlines have expired.

6. Commencement of contract

The security contract shall have binding nature for the security company as soon as the customer receives from Messe Freiburg a written order confirmation.

7. Jurisdiction

Jurisdiction shall be the seat of management of the security company, unless agreed otherwise.

Exhibition carrier

16

Deadline: October 13th 2023

General

1. Exhibition forwarding charges apply to all services carried out at Messe Freiburg by the official forwarding agent. These include the transportation of exhibits to and from the exhibition and the completion of any formalities required for Germany or other countries.

2. Prices are based on the exhibition forwarding charges listed. The maximum rates are specified. Calculations are based on: 1 m³=200 kg excluding VAT. Flat rates are used where weight is not specified. Administrative costs cover work scheduled to be carried out by the contracted forwarding agent (provision of manpower, fork lifts, cranes, lorries etc.). Each order is charged separately.

3. All orders carried out by the official forwarding agent are subject to the latest versions of the conditions of exhibition carriage, exhibition forwarding charges, German Freight Forwarders' Standard Terms and Conditions (ADSp) and, if these do not cover logistics services, the General terms and conditions of logistics services providers (Logistik AGB). In accordance with section 23 of the ADSp , liability of the forwarding agent for damage to goods within the meaning of section 431 of the German Commercial Code (HGB) is limited to five euros/kg for goods in the forwarding agent's custody, to 2 SDR/kg if goods are carried by multimodal transport (including transport by sea), and to one or two million euros, or 2 SDR/kg, whichever is highest, per claim and/or occurrence. The parties also agree that

(1) section 27 of the ADSp does not extend the forwarding agent's liability or liability for the fault of individuals and other third parties beyond statutory provisions, such as section 507 of the HGB, article 25 of the Montreal Convention, article 36 of the Uniform Rules Concerning the Contract of International Carriage of Goods by Rail (CIM) and articles 20 and 21 of the Budapest Convention on the Contract for the Carriage of Goods by Inland Waterway (CMNI), for the benefit of the customer,

(2) in the event of nautical errors or fire on board the ship as listed in section 512 paragraph 2 No. 1 of the HGB, the forwarding agent as the carrier will only be liable for own fault, and

(3) the forwarding agent as the carrier as defined by the CMNI will not be liable for any damage arising from nautical errors, fire on board or vessel defects as stipulated in article 25 paragraph 2 of the CMNI. Notwithstanding section 2.3 of the ADSp dated 1st January 2003, the ADSp also applies to heavy loads and crane and installation works up to a weight limit of 20 t per unit as expressly agreed. For orders with higher unit weights, the latest terms and conditions of the German Federal Working Group Heavy Haulage and Crane Work (BSK) shall apply.

4. Exhibits must be dispatched to Freiburg for handover to the forwarding agent at no cost to the forwarding agent. To ensure swift and reliable delivery, each package must be clearly labelled with the name and exact exhibition and stand description of the recipient.

5. Official forwarding agent's contractual obligations and liability:

1) regarding delivery shall end when the exhibits have been deposited at the labelled exhibition stand. This shall apply even if the exhibitor or authorised representative is not present.

Unless a specific time has been agreed, incoming shipments may be delivered from the first set up day onwards.

2) regarding storage of empties/full units shall begin once these have

these have been collected from the stands and end when returned to the stands at the end of the exhibition. Official forwarding agents shall not be liable for any exhibition or stand construction material found in empties. Exhibitors/ stand construction companies are obliged to declare any exhibition or stand construction material as full units and label it as such.

3) regarding the return transportation of exhibits shall only begin when goods are collected from the exhibition stands within the official dismantling times, even if the exhibitor or authorised representative is not present.

Delivery of dispatch papers/orders to the forwarding agent's office does not create liability. Exhibitors are advised to take out their own transport and storage insurance. This may be organised through the forwarding agent. The official forwarding agent will only provide insurance for empties by special request. No liability is accepted for instructions and orders communicated verbally by exhibitors to the official forwarding agent's technical personnel.

6. The official forwarding agent will only collect and store empties once the order has been placed in writing. Storing empties in the exhibition halls is prohibited as a matter of principle by order of the construction supervisors and fire brigade. Any empties found in the exhibition halls just before the end of the official set up time will be removed by the official forwarding agent at the exhibitor's expense, regardless of whether the exhibitor has placed an order therefor. Exhibitors must ensure that empties are ready for transport by the official forwarding agent and labelled with a completed empties sticker.

7. Any complaints must be submitted to the official forwarding agent's office in writing. Verbal complaints shall not suffice.

8. Forwarding agent invoices must be settled without delay. Payment shall be deemed to be delayed if the invoice has not been paid within ten days of receipt; exhibitors will not receive a reminder. In the event of default, the contracted forwarding agent may charge interest in line with the ADSp.

9. The exclusive place of performance for all obligations arising from concluded contracts shall be Freiburg. The place of jurisdiction for both parties shall be Freiburg.

10. These official forwarding agent charges shall become effective as of 1st January 2021. Any existing forwarding agent charges shall become invalid.

Application for exhibition and personal liability insurance (please place a cross by the type of insurance and sum required). The insurance applies only to domestic exhibitors. Foreign exhibitors are requested to contact the Exhibition Management directly! The invoice will be issued by the Exhibition Management in this case.

A) Application for exhibition and personal liability insurance

Exhibition stand and furnishings – type of goods exhibited:

Please note: This application does not apply to the insurance of real carpets, furs, jewellery, antiques, etc., or for animals. In these cases special premiums and insurance conditions apply and will be supplied on request.

The German Insurance Contract Law requires that all necessary documents are handed out to the policyholder prior to conclusion of contract. Unfortunately, this is not feasible to the extent legally prescribed. Please send us your request to forward the Terms and Conditions. The applicant confirms with his signature that he has received all necessary documents, either as a hard copy, on data carriers, or by e mail. With his signature, the applicant renounces his claim on the obligatory consultancy and documentation services which are to be provided according to the EU insurance mediation directive. In this regard, we point out that such behaviour might prove disadvantageous to the possibility of asserting a claim for damages against the insurance intermediary failing to fulfil his consultancy and documentation service duties. Please pay attention to the attached documents.

B) Personal liability insurance

Only necessary if the company's current liability insurance policy does not cover the risks involved in taking part in an exhibition!

Coverage per incident:

2.000.000,00 € for damage to persons
1.000.000,00 € for damage to goods

The total obligation of the insurer for all occurrences of damage is limited to double the amount. Decisive for insurance cover are the General Conditions of Insurance for personal liability insurance and the special conditions and descriptions of risks.

**Per exhibition stand
incl. insurance tax**

60,00 €

Special premiums and contract conditions apply to exhibitors of animals. These are available on request.

Amount of insurance required (goods and stand):

Amount of insurance required (goods and stand)	Premium (€) incl. insurance tax
to 17.500,00 €	85,70
to 25.000,00 €	107,10
to 37.500,00 €	139,90
to 50.000,00 €	160,70
to 75.000,00 €	206,50
to 100.000,00 €	248,50

Exhibition insurance

17

Deadline: October 13th 2023

Coverage provided by A (exhibition insurance)

1. The general conditions for the exhibition insurance 2014 (AVB Exhibition 2014, Parts A to D) are decisive for the insurance for the return transport and the stay of the insured items on the exhibition grounds. The conditions will be delivered on request.

2. Extract from the General Conditions of Insurance

Coverage is provided for damage and losses caused by: accidents to the means of conveyance carrying the goods insured, fire, lightning, explosion, force majeure, theft, disappearance, robbery, effects of the weather, breakage, bending and denting, provided no alternative agreement has been made in accordance with point 3 points to note.

3. Points to note

- a) In order to guarantee insurance cover, it is necessary for a representative to be present at the stand at all times, and that the area is locked, guarded or otherwise protected against break in outside visiting hours
- b) In each incident of damage, the insured has to bear the first € 125.00 of the loss incurred.
- c) If the goods exhibited are sold and handed over to the purchaser during the exhibition, they will not be covered in the event of loss resulting from theft or disappearance.
- d) Objects exhibited outdoors are not insured against theft, disappearance and effects of the weather. If the goods are exhibited in tents, damage resulting from the effects of the weather except storms and damage resulting from storms – are excluded

4. Obligations

All damage should immediately be reported to the insurer. Damage resulting from fire and theft should be reported to the relevant police station at the same time. If the obligations listed above are not fulfilled, loss of cover may result

5. Exhibition stand and furnishings

- a) The insurance policy also applies to the exhibition stand including furnishings and any objects made of glass, porcelain, stoneware, etc. which constitute part of the furnishings, provided the sum insured is adequate. The insurance company's replacement policy for objects made of glass, porcelain, etc. is restricted to 10% of the sum insured. Such goods can be insured to a proportionally higher value on payment of a surcharge
- b) Flowers and plants which constitute part of the stand furnishings are not insured

6. Exclusion clause

Biochemistry and nuclear energy

Coverage provided by B (personal liability insurance)

Insurance cover is granted according to the regulations set down by the General Insurance Conditions for personal liability insurance. The personal liability of persons employed at the exhibition by the party insured is also covered.

Regardless of the exclusions laid down in the General Insurance Conditions for Personal Liability Insurance, personal liability claims resulting from the following are not covered damage, destruction and disappearance of the objects and animals exhibited and given up for safekeeping.

Damage of all kinds to the property of the persons taking part; The operation, driving and steering of motor vehicles and vehicles used in air and water transport. The insurance cover only exists in subsidiary form, e.g. for the exhibitor inasmuch as the liability insurance of his/her company does not cover this risk.

General note:

The insurer will immediately send each applicant a premium invoice relating to the insurance applied for.

Exhibition insurance

17

Deadline: October 13th 2023

Important duties of disclosure:

Cautionary information concerning the legal consequences of non compliance with the pre contractual duty of disclosure (Notification according to section 19, paragraph 5 VVG [Insurance Contract Law])

Dear Applicant,

In order to enable us to process your insurance policy, you must answer the questions put to you truthfully and in full. You should also mention circumstances to which you may attach only minor importance. Any statements you do not wish to make to the insurance broker in person should be sent in writing promptly and without delay to Badische Gemeinde Versicherungs Verband, Badische Allgemeine Versicherung AG or Badische Rechtsschutzversicherung AG, Durlacher Allee 56, 76131 Karlsruhe, postal address 76116 Karlsruhe. Please note that you will jeopardise your insurance cover if the information you supply is incorrect or incomplete. Further information on the consequences of non compliance with the duty of disclosure is provided in the following.

What are the pre contractual duties of disclosure?

Before submitting your contractual declaration, you are obliged to disclose truthfully and in full any and all risk related circumstances which we have asked for in written form. It is also your duty to provide such information if we request in writing that you supply information on risk related circumstances after having received your contractual declaration, but before agreeing to issue the policy.

What are the possible consequences of non compliance with a precontractual duty of disclosure?

1. Cancellation and loss of insurance coverage

If you fail to comply with the pre contractual duty of disclosure, we are entitled to cancel the policy. This is not the case if you can prove that non compliance was neither deliberate nor due to gross negligence. In the case of non compliance with the duty of disclosure as a result of gross negligence, we are not entitled to cancel the policy if we would have issued it in full knowledge of the circumstances which were not disclosed, albeit on different terms.

Cancellation of a policy means that insurance cover can no longer be provided. If we decide to cancel a policy after an insurance claim has been made, we are still liable to pay the claim if you are able to prove that the circumstances that were either not declared at all or were described incorrectly were neither of direct consequence:

- for the occurrence leading to or the establishment of the claim
- nor for the determination or the extent of our obligation to provide indemnification.

However, our obligation to provide indemnification no longer applies if you are guilty of deceit with regard to non compliance with the duty of disclosure. In the event of cancellation we are entitled to retain that proportion of the premium that corresponds to the duration of the policy until the time when the termination of the policy takes effect.

2. Termination of the contract

If we are unable to withdraw from the contract because your non compliance with the pre contractual duty of disclosure was merely due to negligence or inadvertence, we are entitled to terminate the policy with one month's notice. This right to terminate the contract

is excluded in such cases in which we would have been prepared to issue the policy, though perhaps on different terms, even if we had been aware of the undisclosed circumstances.

3. Alteration of the contract

If we are unable to cancel the contract because we would have been prepared to issue the policy even had we been aware of the undisclosed risks, though perhaps on different terms, the modified terms shall become part of the contract at our request. If your non compliance with the duty of disclosure was not intentional, the modified terms will only become part of the contract in the current insurance period. If such contract modification should cause the premium to increase by more than 10%, or if we exclude insurance cover for the circumstances that were not disclosed, you have the right to terminate the contract immediately within one month after receiving notification of the modified terms. In such case, we will call your attention to this fact in our letter.

4. Exercising our rights

Should we wish to exercise our rights with regard to cancellation, termination or modification of the contract, these must be asserted in writing and within one month from the date on which we become aware of the non compliance with the duty of disclosure on which the assertion of such right is based. When asserting such rights, we are obliged to state the circumstances on which we base our assertion. In substantiation we may subsequently adduce other circumstances if these are not covered for the period referred to in sentence one. We are not entitled to assert our rights with regard to cancellation, termination or modification of the contract if we had prior knowledge of the undisclosed risk or of the incorrect nature of the disclosure. Our rights with regard to cancellation, termination or modification of the contract lapse after a period of five years following the issuance of the policy. This does not apply in the case of insured events occurring before this period has expired. A period of ten years applies if you have deliberately or deceitfully failed to comply with the duty of disclosure.

5. Representation by a third party

If you choose to be represented by a third party when the contract is concluded, it will be necessary to consider personal knowledge and possible deceitfulness both on your part and on the part of your representative with regard to the duty of disclosure, cancellation, termination of contract, contract modification and the period in which we are entitled to assert our rights. You can only plead that your failure to comply with the duty of disclosure was neither deliberate nor the result of gross negligence if neither you nor your representative can be deemed to have done so deliberately or as being guilty of gross negligence.

Exhibition insurance

17

Deadline: October 13th 2023

Notification according to section 28, paragraph 4 VVG [Insurance Contract Law] on the consequences of non compliance with conditions subsequent to the policy

Dear Applicant, In the case that an insurance claim is made, we need your help and cooperation.

1. Obligation to inform and obligation of full disclosure

On the basis of our contractual agreements with you, if an insurance claim is made we are entitled to request that you provide us with any and all information that may be necessary to determine the validity of a particular insurance claim or the extent of our obligation to provide indemnification (obligation to inform), and enable us to verify our obligation to provide indemnification by disclosing everything that might help establish the facts of the case (obligation of full disclosure). We are also entitled to request that you place certain documents at our disposal insofar as this remains within reasonable limits.

2. Non-payment of claim

Should you, contrary to the provisions of this contract, deliberately fail to provide us with information at all or provide incorrect information, or if you deliberately withhold the documents we have requested, you are not entitled to indemnification. If you are found guilty of gross negligence with regard to non compliance with these obligations, you will not lose your entitlement completely, though we may deduct a proportion of our payment commensurate with the gravity of your negligence.

There will be no such deduction if you can prove that your non compliance with the obligation was not due to gross negligence. Even in the case that you fail to comply with your obligation to inform, obligation of full disclosure, or obligation to place certain documents at our disposal, we are nevertheless obliged to provide indemnification if you can prove that such deliberate or grossly negligent non compliance with your obligations was neither of direct consequence for the establishment of the claim nor for the determination or the extent of our obligation to provide indemnification.

If your failure to comply with your obligation to inform, to full disclosure or to make certain documents available was the result of deceit, we are in each and every case absolved of our duty to provide indemnification.

3. Please note

If the entitlement to indemnification does not apply to you, but to a third party instead, then the obligation to inform, to full disclosure, and to supply any documents requested applies to this third party as well.

Decorative plants

23

Deadline: October 13th 2023

General terms and conditions for rental of decorative plants (short term rental)

1. The customer receives the plants specified in the order for decorative purposes.
2. The rental period begins on the agreed delivery or customer pick up date and extends to the agreed date of retrieval or return by the customer.
3. The customer shall confirm acceptance of the rental plants and, if applicable, the booking of any additional services in writing. Any deficiencies shall be communicated without delay; otherwise it is assumed that the plants are acceptable.
4. Should a deterioration in the condition of the plants be observed, the customer shall immediately notify f. q. b. g GmbH Stadtgärtnerei Freiburg so that appropriate provisions for plant care can be made. The customer shall bear these costs. During the rental period it is the customer's responsibility to maintain the integrity of the rental plants. The customer obliged to provide compensation for any damage that may arise. The customer may be exempted from this obligation by paying an insurance premium.
5. Following retrieval or return by the customer, our expert staff will prepare a status report including the general condition of the plant and the container upon return as well as any potential pests or diseases. We reserve the right to take photographs to document the condition of the plants and containers.
Should any issues be identified and the customer deemed accountable, the report will be sent to the customer without delay. Costs arising from redress will be billed to the customer.

Implementation provisions and important notes

A

Important notice for stand construction

It is forbidden to fasten any objects to the walls of the exhibition hall, any glass surfaces or the floor of the exhibition hall. Driving nails or drilling holes into the walls or into the floor is also forbidden. Any damage will be charged at your expense.

Attachment of carpets to the floor of the exhibition hall is permitted only if a completely removable adhesive tape is used (DIN 18365), which is specially designed for carpets and PVC floor coverings.

Exhibitor passes / parking permit(s)

Exhibitor passes will be ready for collection during the stand assembly time at the information desk. Exhibitor passes are only valid if they have been filled in completely and if they are presented together with the exhibitors' personal identification. They may only be handed over to the exhibitor when the rent for the stand has been paid in full. The number of free exhibitor passes depends on the size of the stand (see form 12). Please order with the same form the number of parking permit(s) you need.

Stand construction in the halls

The back and side walls of the stands erected by the organizer (as far as they are needed to form the boundary of the stand) are 2.50 m high throughout. Exhibitors are requested to adopt the same height for their own stands. Any exceptions must be specially approved by the organiser. The walls erected have only a rough finish. Exhibitors must cover them with fabric, or may wallpaper them using a readily soluble adhesive and then paint them. Walls may not be painted without covering. All material used must be fire retarded according to DIN 4102. The right to issue additional stand design regulations is reserved. Please observe that stand partition walls must be erected towards neighbouring stands. These walls can be ordered by using form No. 1b. Own walls or stands may be used with a max. height of 2.50 m.

Night Watch

The night watch will be carried out by a night watch and security service. Neither visitors nor exhibitors are permitted to enter the grounds of the exhibition centre after closing the exhibition.

Exhibitors and their employees must leave the exhibition centre no later than one hour after the exhibition closes. The electricity supply must be switched off and all plugs pulled out of sockets.

Special regulations

Smoking is prohibited in the exhibition halls as well as in the foyer. The exhibitors are self responsible in their obligation to strictly abide by the regulations of construction work supervision, fire protection, the VDE [Association for Electrical, Electronic & Information Technologies], the municipal affairs office, and the local police. The use of spirit, oil, gas, or the like for cooking, heating and other purposes is prohibited. The use of gas cylinders is absolutely prohibited inside the halls and tent roofed areas. The use of gas inflated balloons requires the prior consent of Fair Management. Two storey exhibition stands require the prior consent of the event organiser. The exhibitors are obliged to apply for a special permit for two storey exhibition stands at the relevant public authorities and to comply with pertinent requirements. It is prohibited to distribute advertising brochures and leaflets outside the perimeter of the rented stand area. Gambling, lotteries and raffles as well as games of chance depending on admission tickets are absolutely prohibited.

Special considerations of air traffic

Exhibitors are advised that there is an airport close to the exhibition centre and a helipad on the surgical building of the University Clinic in Freiburg. Exhibitors should therefore avoid anything which could disrupt or even endanger air traffic, in particular: it is not permitted to install or operate light sources (e.g. lasers or intensive light sources) which could disturb or even blind pilots and flight staff. It is not permitted to install or use radio systems or walkie talkies which could disrupt the radio or navigation systems of the airport or helipad or the systems on board the air traffic landing or taking off from there. Exhibitors may not set up constructions beyond the limits imposed by the runway and landing strip of the airport. Constructions higher than 7.8 m have to be approved by the fair management. Any type of emission which could affect the field of vision of air traffic operators at the airport or helipad is forbidden. Exhibitors should avoid spilling any fluid on the surfaces used by air traffic. The fair management advises exhibitors that certain emissions such as noise are to be expected from air traffic.

Liability, insurance

The fair management urgently recommends that an insurance contract is closed for activities related to the exhibition, which also covers transport delivery and removal of exhibits and equipment, as well as a liability insurance covering personal and property damage. The organiser shall be liable for negligent violations of its obligations arising from the contract according to statutory rules. If it cannot be charged with gross negligence or intent, however, it shall only be liable for typical, foreseeable damage. In all other cases the organiser shall be liable if a legal representative or a leading employee has caused damage by intent or gross negligence. For all damage arising from injury of the body or health the relevant statutory rules shall apply. All other claims for damages arising from a breach of duty shall be excluded.

Ban on disposable food containers

The use of disposable food containers is forbidden. Drinks may only be served recyclable containers, e.g. glasses or recyclable bottles. Cans, plastic beakers and non recyclable bottles may not be used. It is not permitted to serve food in disposable containers or with disposable cutlery.

Stand cleaning

Each exhibitor is individually responsible for the cleaning of their stand. Sweepings may be swept into the hall aisles in the evenings, from where they will be removed by employees of the exhibition centre. Additional personnel can be ordered with form No. 13 and work must be carried by the contract supplier of the organiser.

Transport in the grounds of the Exhibition Centre

Any transportation necessary during the exhibition must be effected by half an hour before the fair begins and half an hour after the fair ends. The duration of the transport is limited to at most an hour. The driving and parking of vehicles in the grounds of the exhibition centre is strictly forbidden outside these times. The parking and living in caravans and motor homes is likewise forbidden.
